# ABOUT US

Welcome to

**Atlas Transport and Logistics Pty Ltd**

Atlas Transport and Logistics Pty Ltd is a South African company committed to delivering reliable, efficient, and cost-effective transport and logistics solutions. Established in 2018, our company has built a strong reputation for professionalism, safety, and timely delivery.

We specialise in coal transport logistics, coal and ash handling in mines, yellow plant supply and management, haulage of industrial products across SADC, and the provision of site containers for various customer needs. In addition, we supply and operate heavy plant machinery, as well as offer container sales, rentals, and modifications.

Our operations are strategically based in Witbank, Mpumalanga, with easy access to major mining and industrial hubs. Led by our Director, Onkar N Choudhary, the team works tirelessly to ensure that every project is handled with precision, from planning to execution.

We are guided by our commitment to safety, customer satisfaction, and operational excellence, making us the go-to choice for clients who demand quality and dependability.

# VISION

To be the most trusted transport and logistics partner in the mining and industrial sectors, recognised for reliability, innovation, and service excellence.

# MISSION

To provide safe, efficient, and dependable transport, logistics, and heavy machinery solutions that meet the needs of our clients across South Africa and the SADC region.

# VALUES

## 01 Reliability

We deliver on our promises, on time, every time.

## 02 Safety

We prioritise the wellbeing of our people, clients, and the communities we serve.

## 03 Integrity

We operate with honesty, transparency, and respect in every transaction.

## 04 Excellence

We strive for the highest standards in service, performance, and customer satisfaction.

# OUR SERVICES

Atlas Transport and Logistics provides solutions that go beyond moving goods. Our operations are built to support mining, energy, and industrial projects in South Africa and the wider SADC region.

## Transport and Logistics

### 01

#### **Coal Transport Logistics**

We manage end-to-end coal haulage from pit to plant, ensuring compliance with weight limits, road safety standards, and delivery schedules. Our fleet is equipped for both short-haul and long-distance transportation, backed by qualified drivers who understand mining routes and conditions.

### 02

#### **Coal and Ash Handling in Mines**

Our teams handle the loading, transfer, and safe disposal of coal and ash within mining environments. We supply the necessary equipment and operators to streamline on-site movement, reduce downtime, and maintain environmental compliance.

### 03

#### **Haulage of Industrial Products across SADC**

We provide cross-border transport services into SADC countries for cement, steel, chemicals, and other bulk industrial products. All shipments are backed by Goods in Transit (GIT) insurance, supported by customs-clearing partnerships for faster border processing.

# OUR SERVICES..CONTINUED

## Plant and Container Solutions

### 04

#### **Yellow Plant Supply and Management**

We supply a wide range of heavy-duty plant machinery, including dump trucks, TLBs, front-end loaders, and excavators. Clients can choose dry hire (machine only) or wet hire (machine with operator). Our management services ensure equipment availability, scheduled servicing, and compliance with safety standards.

### 05

#### **Heavy Plant Operation and Maintenance**

Beyond supply, we provide skilled operators and qualified mechanics available 24/7 to attend to breakdowns on site. This reduces downtime and ensures projects stay on track. Our technicians are trained to perform preventative maintenance and quick repairs.

### 06

#### **Container Sales, Rentals, and Modifications**

We stock and customise containers for site offices, storage, and accommodation. Modifications include electrical fittings, ventilation, partitioning, and security upgrades. Short-term rentals are available for project sites, while purchase options allow clients to secure long-term infrastructure quickly.

# WHY US

**We keep your cargo moving safely across South Africa and SADC with full accreditation, insured loads, and 24/7 technical backup.**

A background image for the 'Accredited Operations' section showing a worker in a yellow hard hat and brown overalls looking at a laptop in a warehouse setting with blue shelving units.

## Accredited Operations

Registered with CIPC (2018/011364-07) and compliant with the National Road Traffic Act, C-BRTA for SADC haulage, and SARS customs clearance. All vehicles are COF-certified and roadworthy.

A background image for the 'Goods Insurance' section showing the interior of a large warehouse with blue metal shelving units and several cardboard boxes on the floor.

## Goods Insurance

Every consignment is protected by Goods in Transit (GIT) insurance, with optional SASRIA cover for strikes, riots, and civil unrest.

A background image for the '24/7 Technical Support' section showing a mechanic in a red shirt working on the engine of a vehicle.

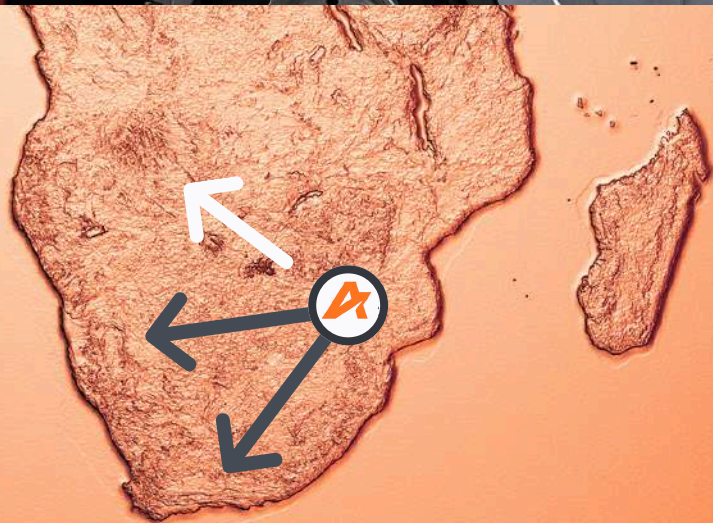

## 24/7 Technical Support

Fleet fitted with GPS tracking and backed by qualified mechanics on standby day and night to reduce downtime and keep projects moving.

# OUR LOCATIONS

Atlas Transport and Logistics operates across South Africa and into the wider SADC region, with our head office strategically located in Witbank, Mpumalanga. From the heart of the mining belt, we provide seamless road transport, plant hire, and container solutions that reach major industrial hubs and cross-border trade routes.

## 9 Provinces Covered

Active operations across South Africa, including Mpumalanga, Gauteng, Limpopo, and KwaZulu-Natal.

## 5+ SADC Routes

Cross-border haulage into Mozambique, Botswana, Namibia, Zambia, and Zimbabwe.

## 350km Average Radius

Daily transport coverage from Witbank into mines, plants, and power stations within the coal-rich Highveld region.

# CONTACT US
